

I am writing to encourage you to keep K-Love on the air as an FM Translator service. This radio station encourages everyone who listens to it, serves the local community with gatherings functions, concerts and service opportunities. It can even be said that it has saved lives, as many who contemplated suicide heard a song that changed their mind. To give LPFM priority would replace the family-friendly programming that we enjoy on K-Love and is simply not acceptable. I encourage you to carefully consider the repercussions this may cause, especially in today's morally bankrupt society. We are in desperate need of the message that K-Love provides. Thank you.
